RISHII - Resources for the Internationalisation of Higher Education Institutions in India

The Resources for Internationalisation of Higher Education Institutions in India (RISHII) program stands as a transformative initiative spearheaded by Deusto University in Bilbao, Spain. This pioneering program is co-funded by the prestigious Erasmus+ Programme of the European Union, reflecting a commitment to fostering global collaboration and enhancing the quality of higher education in India. Among the distinguished cohort of 14 partner institutes from India, St Aloysius College has emerged as a beacon of academic excellence and innovation, contributing to the program's overarching goal of promoting internationalization within the Indian higher education landscape.

RISHII aims to bridge cultural and educational gaps by facilitating meaningful partnerships, promoting academic mobility, and fostering a dynamic exchange of ideas and expertise. Through this collaboration, St Aloysius College is poised to benefit from the wealth of resources, expertise, and best practices offered by Deusto University and its European counterparts. As the program unfolds, it promises to not only elevate the global standing of Indian higher education institutions but also enrich the academic experience for students, faculty, and staff alike, laying the foundation for a more interconnected and knowledge-driven world.
